

Product Portfolio Ropeway

Semperit offers the following products which can be designed to our customer needs

Ready-to-Fit liners with textile carcass

For all constructions with board discs. All Ready-to-Fit liners can be manufactured according to your specifications

Bull Wheel Liners (Liner Profiles)

For drive, fixed return, deflection, guide and tension pulleys as well as bull wheels

Molded/Open Liners

For pulleys produced in one piece (older installations)

Side Sheaves and Special Types

For replacement of worn parts without replacing the whole sheaves and in addition to ropeway products for cranes, stone saws, power plants, lifts, amusement parks, etc.

All specifications, numbers, calculations, test values, and data mentioned here – which are the basis for our customer consultation – are in accordance with the latest engineering standards. As the operating conditions have an influence on product application, this information can only be used as a rough guideline. It is the sole responsibility of the customer to check the application conditions of each individual case, and whether the specified quality criteria of our products are adequate for the intended purpose. Improper use, excessive loading, or exposure to impermissible media can impair the product's function. Our experts will be happy to answer any questions you might have.
