

Rubber Compounds and Properties

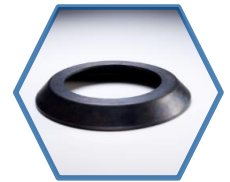

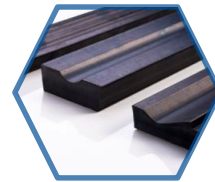

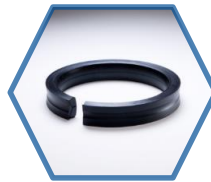

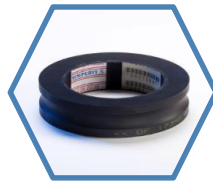

All profiles and liners can be manufactured in different compounds and with individual groove shapes

Sheave Liners

- Available open or closed
- With fabric layers for closed Liners
- Outer diameters 120 to 800 mm
- Different compounds
- Individual shapes

Profiles (Bull Wheel Liners)

- Profile length up to 31m
- Different compounds
- Individual shapes

Compounds

	Ready to fit Liners	Open Liners	Bull Wheel Liners	Special Types
A471 electr. neutral	X			X
A438 isolating	X		X	X
A470 antistatic	X		X	X
A436 antistatic		X		
A2432 conductive			X	
A2428 conductive			X	

All specifications, numbers, calculations, test values, and data mentioned here – which are the basis for our customer consultation – are in accordance with the latest engineering standards. As the operating conditions have an influence on product application, this information can only be used as a rough guideline. It is the sole responsibility of the customer to check the application conditions of each individual case, and whether the specified quality criteria of our products are adequate for the intended purpose. Improper use, excessive loading, or exposure to impermissible media can impair the product's function. Our experts will be happy to answer any questions you might have.
